AUGUST 2003

Past Events

The June Point Dive took place Sunday, June 29th. There were five boats available for the dive. The boat captains were: John Haskell, Angelo Correnti, Tommy Lo, John Molis and Gary Osborne. Four boats left from the Quincy Yacht Club and the fifth boat skippered by John Molis left from Landfall Marine. The destination for the dive was Graves Light. The four boats from the yacht club arrived okay but John Molis had an engine problem off of the Outer Brewster. He Dropped anchor and contacted the main group to advise them. The main group did a dive at the light while John and his crew dove at the Outer Brewster. Jay Theriault reported on the Graves dive stating visibility was poor and not many lobster were taken. Following this dive the boats pulled anchor and headed over to Shag rocks. On the way Gohn Haskell assisted John Molis. The visibility proved to be better at the Shags. John Haskell was able to tow John Molis to the to the launch ramp in Weymouth.

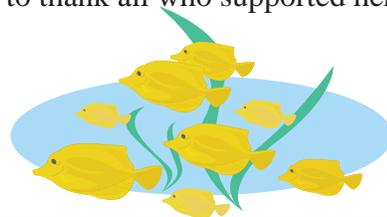

The Night Before the Fourth celebration went off as scheduled in Weymouth. But due to over-cast skies the fireworks were a bust. Both from the Quincy shores in Houghs Neck and the beach at Wessagussett there was not much to be seen since the aerial display was hidden in the clouds.

There was a Transect Dive on July 6th. There were three boats with a total of ten divers on location in an area between Three and One Half Fathom Ledge and Graves Light. The depth was 99 feet where the transect lines were laid. The next transect dive will be August 17th.

The Non-Point Dive was held on Sunday, July 13th. Again the turnout of boats was good. There were five boats and fourteen divers who ventured out to the ledges at the Graves. Jeanine Fabian reported that visibility was decent, around twenty feet. She said that many lobster were taken. The weather was sunny and waters were mostly calm. Following this dive, two of the boats headed for the Brewsters where they did a second dive. The divers out for the day on the water were: Angelo Correnti, Jeanine Fabian, new members Kathi Bell & Timothy Peak, Marshall Reynard, new member Todd Alger, Robert Spiker, Tommy Lo, Will Woodman, Brian Donohue, Ed Bates, Joe Geyer, John Molis and Peter Speen.

The U.S.C.G. Training session is on hold. John Blackadar has been trying to contact the Coast Guard about this joint venture with the dive team. It appears the the officer in charge of this operation has been transferred and his replacement has not yet been assigned.

Dina Solimini competed in her first triathlon on July 13th. She completed the combined run, cycling and swim in under two hours and with support of club members and others she was able to secure pledges amounting to \$1023. to be donated to Ovarian Cancer Research. She wishes to thank all who supported her.

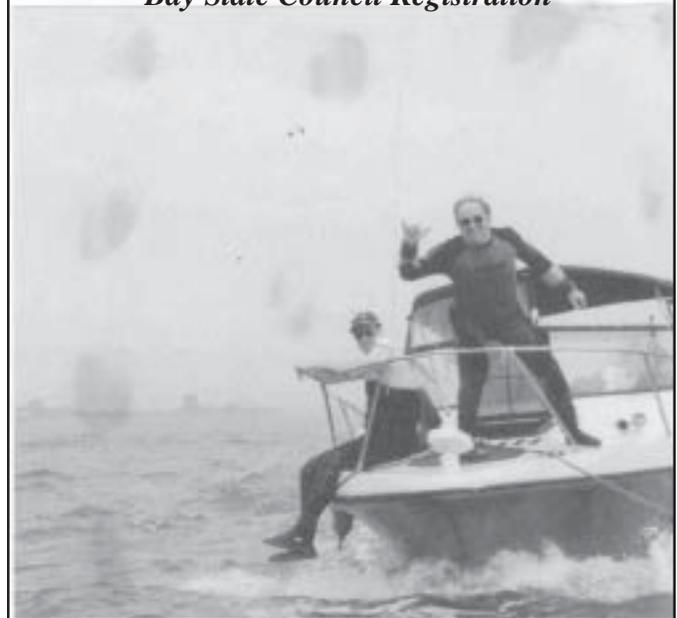

The Point Dive for July was Sunday, the 20th. There were 16 SSN divers entering the water out at the Graves. Club members making a dive were: Todd Alger, Ed Bates, Kathi Bell, Roy Chamberlain, Angelo Correnti, Jeanine Fabian, Joe Geyer, John Haskell, Jerry Levine, Tommy Lo, Paul Naserella, Tim Niu, Gary Osborne, Tim Peak, Dina Solimini and Jay Theriault. Transportation was handled by five boats, the skippers being Angelo Correnti, Ed Bates, John Haskell, Tommy Lo and Gary Osborne. All went well on the dive at the Graves. A second dive was done at Green Island where there were some scallops taken. Ed and Angelo had some regulator problems and used other diver's equipment for this dive. Following the dives, the boats, with the exception of Ed Bates and Tommy Lo, headed over to Lovell's Island for a outing on the beach. At Lovell's they were met by Tom Molis and his wife, and the dog, and also Theresa Czerepica. Tom Lo, Jay Theriault, Tim Peak Joe Geyer and Ed Bates had commitments back on the shore. After a nice lunch and a little relaxing the boats headed back to the mainland and arrived between 4:30 and 5:00 o'clock.

The Tuesday Night dive, scheduled for July 22nd was cancelled by VP John Haskell and boat captain John Molis. The arrival of inclement weather, thunderstorms, caused the cancellation.

The trip to the Museum of Science to see 'Top Speed' will be after the newsletter is published, so anything to report will be in next months newsletter.
